## POLARIS EXTREME SYNTHETICS

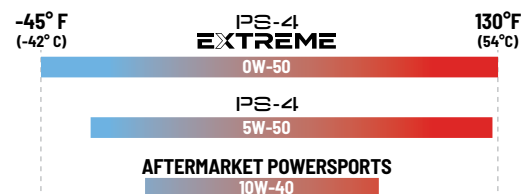

### PS-4 EXTREME SYNTHETIC 0W-50

- Our best extreme high and low temp formula, excellent for high temperatures and racing, even at temps of 54°C, plus easier cold starting even below -42°C
- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

### THE BEST PROTECTION, MAXIMUM PERFORMANCE

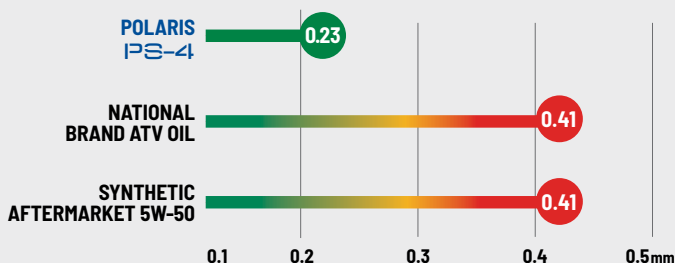

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

### WIDEST VISCOSITY FOR ULTIMATE PROTECTION

### ENGINE WEAR TEST

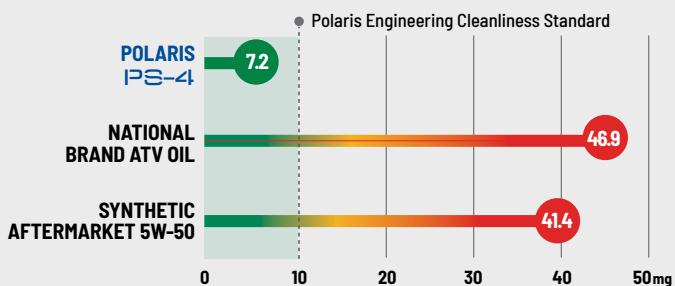

LOWER NUMBER = LESS ENGINE COMPONENT WEAR  
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

### DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.

#### DEMAND DRIVE FLUID

Proprietary formulation prevents clutch slippage and chatter and reduces component wear and corrosion.

- » 1 L • 502563
- » 25 L • 502564
- » 200 L • 502565

#### ANTI-FREEZE

Prevent corrosion on metal components, eliminate scaling and maximize cooling system performance.

- » 1 L • 502566
- » 25 L • 502567
- » 206 L • 502568

#### CARBON CLEAN

Ultimate fuel and injection system cleaner.

- » 125 ML • 502528

#### FUEL STABILIZER

# THE AMERICAN POWERSPORTS CO.

The Polaris story begins with a relentless drive to explore what's outside, to test our potential.

It all began here in America—over 70 years ago—in a small factory in Roseau, Minnesota. There, our founders forged a company built on American values, grit and ingenuity.

That factory is not so small anymore and still operates to this day, and in 2014, a new era began as our European factory assembled its first vehicles in Opole, Poland. This expansion channelled our American legacy to the heart of Europe. Our factories build the best powersports machines that America has to offer, working alongside our design, development, and testing departments as we strive to create vehicles that move you.

Today, we continue to design, engineer, and test our industry-leading vehicles across the world on dirt, sand, snow and soil with owners like you in mind.
